

## GENERAL INFORMATION

### Meeting Wide Internet

Network: **ASER2026**

Password: **ASER2026**

### Meeting Space

Monday - Thursday: Floor 3

### CME Credit

Attendees received the ASER 2026 Annual Meeting Learning Notification via email and details are also published on the meeting application. The Learning Notification provides accreditation details, and disclosure information. You will receive an online evaluation at the end of the last day of the meeting – please complete the evaluation to download your CME certificate.

### General Session Live-Streaming

Monday, October 5 - Thursday, October 8

NEW! Live streaming through YOUR ASER account:

1. We recommend livestreaming on a tablet, laptop, or desktop computer.
2. Visit <https://tinyurl.com/aserlivestream> and log in using your ASER credentials (the same credentials you used to register for the Meeting).
3. Under "Quick Links" on the right side select "Learning Academy."
4. Select "2026 Annual Meeting"

All General Session and Breakout Session recordings will be available on-demand by November 3<sup>rd</sup>.

### SAVE THE DATE

ASER 2027

September 13-16, 2026 | Vancouver, Canada

The Westin Bayshore

### Whova Meeting App

How to join:

1. Scan the QR code and download Whova from the App Store or Google Play
2. Sign in or create an account with the email you registered with.

### Cases of the Day Competition

Visit the 3rd floor Meadow Ballroom Prefunction and on Whova to view and submit your diagnosis.

Each morning, for three consecutive days, new cases will be displayed here and on the Whova Meeting App. The correct answers will be displayed the following morning and will also be presented on Thursday morning.

### NEW! Badge Scanning

Update your Whova profile to easily share your contact information with fellow attendees.

### Visit. Scan. Collect!

Visit each exhibit table and have a company representative scan your name badge.

The first 50 attendees to visit all exhibit tables can stop by the ASER Registration Desk to receive a ticket redeemable for an ASER 2026 Tumbler!

|                  |                                                                                                                                                                                                            |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 9:40 - 11:05 am  | Stroke Update: Joint ASNR-ASER Session<br>- Koenraad (Hans) Nieboer, MD, FESER, FASER; Eric Wannamaker, MD, MS                                                                                             |
| 9:40 - 9:55 am   | Stroke Update 2026: Trials, Outcomes and Future Perspectives - Michael Lev, MD, FASER                                                                                                                      |
| 9:55 - 10:10 am  | Beyond the Penumbra: Perfusion Imaging in Stroke Look-Alikes - Jason B. Hartman, MD                                                                                                                        |
| 10:10 - 10:25 am | Not Just a Mini Adult Stroke: Imaging Challenges in Pediatrics - Bindu Setty, MD                                                                                                                           |
| 10:25 - 10:40 pm | The Smart Stroke Pathway: Integrating AI into Imaging Workflows - Siddhartha Kosaraju, MD                                                                                                                  |
| 10:40 - 10:55 am | Stroke Mysteries: Challenging Cases from the Reading Room - Omar Parvez, MD                                                                                                                                |
| 10:55 - 11:05 am | Q & A                                                                                                                                                                                                      |
| 11:05 - 11:20 am | Exhibitor Break                                                                                                                                                                                            |
| 11:20 - 12:30 pm | Joint Sponsored Lunch:<br>Frontier Radiology: Shaping the AI You Read With: A Practice Built for Emergency Work<br>Bayer: CT Solutions for Your Emergency Department<br>Philips: TBA<br>Meadow Ballroom CD |
| 12:30 - 1:55 pm  | Vascular Emergencies - Fabio Paes, MD, MBA; Jacques Du Plessis, MD                                                                                                                                         |
| 12:30 - 12:45 pm | Acute Non-Traumatic Findings on Extremity CTA - Fabio Paes, MD, MBA                                                                                                                                        |
| 12:45 - 1:00 pm  | Complications of Ascending Aortic Repair: Key Considerations for the Emergency Radiologist<br>- Kacie Kuykendall, MD                                                                                       |
| 1:00 - 1:15 pm   | Imaging Evaluation of Dialysis AV Fistula in ER - Daniela Galan, MD                                                                                                                                        |
| 1:15 - 1:30 pm   | Aortic Injuries: Updates and What the Trauma Surgeon Wants to Know<br>- Ferco Berger, MD, FRCPC, EDER, FASER, FESER                                                                                        |
| 1:30 - 1:45 pm   | Trauma Surgeon Perspective - Kenji Inaba, MD, FACS, FRCSC                                                                                                                                                  |
| 1:45 - 1:55 pm   | Q & A                                                                                                                                                                                                      |
| 1:55 - 2:10 pm   | Exhibitor Break                                                                                                                                                                                            |
| 2:10 - 3:30 pm   | Jeopardy: Diagnosing Drama - Laura Avery, MD, FASER; Ryan Whitesell, MD                                                                                                                                    |
| 3:30 - 4:30 pm   | ASER Awards Ceremony                                                                                                                                                                                       |
| 5:00 - 6:30 pm   | Women in ASER Happy Hour (Registration Required)                                                                                                                                                           |
