ASER 2024

AMERICAN SOCIETY OF EMERGENCY RADIOLOGY

September 11-14

Capital Hilton • Washington, D.C.

INVITATION

Dear Esteemed Industry Colleagues,

We are delighted to invite you to join us for the upcoming American Society of Emergency Radiology (ASER) Annual Meeting and Postgraduate Course in Emergency and Trauma Radiology at the Capital Hilton in Washington, D.C. on September 11-14, 2024. ASER is dedicated to improving the diagnosis and treatment of acutely ill or injured patients through medical imaging and advancing education and research in Emergency Radiology. The annual ASER Meeting is a dynamic and collaborative forum that draws leading experts in Emergency Radiology from around the world to present critical topics such as disaster planning and preparedness, optimizing workflow efficiencies, and trauma protocol optimization. The 2024 ASER meeting program will provide comprehensive didactic and interactive sessions covering the latest advances and trends in emergency and trauma radiology, including state-of-the-art imaging techniques, and introduce new and original scientific work.

The Meeting is highly relevant to all radiologists who are involved in emergency medical care in all practice settings, community and academic. Subspecialists in Emergency Radiology, Neuroradiology, Musculoskeletal radiology, Thoracic and Abdominal radiology, radiology residents and fellows, and Emergency physicians at all levels of training will find the educational and scientific material presented at the ASER meeting essential to their knowledge base.

We greatly value the critical role our industry partners and technical exhibits have played in the success of our Meetings. We welcome you to partner with us to elevate and raise awareness around your company's brand, educate attendees on your company's portfolio of products and services, and create valuable connections.

Thank you for considering our request for participation. We look forward to your receiving your commitment.

Our association directors, Angie Guy and Keri Yanez, can assist with any questions you may have. They can be reached at info@aser.org or 713-375-2708.

With Warm Regards,

Suzanne Chong, MD, MS, FASER
